1 JAVA

First of all I would like to give a little history on java: it first came up on the 13th of may 1995. It was actually designed for interactive television, but it turned out to be much more than that.it had the capacity to do much more than what the cable tv industry could do as of then, so it was put into other uses which will be explained below.

1.1 CREATOR:

Creator: james gosling and his team which are also known as the (the green team).

1.1.1 USES OF JAVA

Now java is used for all sorts of Various of things such as games, computer programming, e-businesses.

1.1.2 SUITABLE I.D.E.S FOR JAVA

IDES such as IntelliJ IDEA and net beans can be used for java programming

1.1.3 SIMILAR PROGRAMS LIKE JAVA

Java is a lot like lisp or small talk.
